

# ROC Coin Lite Whitepaper

## Introduction

ROC Coin is the official digital token of ROC Motorsports Club. It is designed to strengthen community engagement, reward members, and facilitate exclusive access to events, merchandise, and club activities.

## Token Utility

Members can use ROC Coin to purchase club merchandise, pay for event entry, and access premium club perks. The coin also serves as a reward for active community participation.

## Distribution Model

Initial distribution will be through membership packages, where each member receives ROC Coins upon joining. Future availability will be on supported decentralized exchanges for open market trading.

## Legal Compliance

ROC Coin will operate within Malaysian regulations, avoiding classification as a security token. It is designed strictly for club utility and not as an investment vehicle.

## Future Roadmap

Phase 1: Launch token and integrate with ROC club ecosystem. Phase 2: Enable merchandise payments on official ROC website. Phase 3: Explore listing on decentralized exchanges and partner integrations.
